Major Solutions

- ✓ **CONTROL PANELS (Electro Pneumatic Control Panel)**
- ✓ **ASSEMBLIES (Pneumatic Cylinders Assemblies with Mountings & Accessories)**
- ✓ **CUSTOMIZED SOLUTIONS (Application Based Integrated Customized Products)**

Customized Solutions From MEGATRONE

Purpose: Deliver our expertise and helping our customers to minimize their input material costs, complexities throughout the process. Customized Solutions (A Complete Package – Kit)

Pneumatic Control Panel (Centralize Control System)

Includes major standardized & customized BOM components mounted inside the control panel. Helping machines & system builders in streamlining their scattered materials under one unique ID as well in one unique unit.

Features :

- ✓ Centralize Control Unit dedicated as per the machine / system requirements at one place.
- ✓ Sophisticated & Smart Design Solutions (Meets Industrial Standards).
- ✓ Unique Part Code and control panel unit and inside components.
- ✓ Standard & Reputed Make of Control Panel & Specifications, also customise as per customer's requirements & specifications
Single warranty & performance point for complete Unit.
- ✓ Capability of incorporate electrical as well pneumatic controls solutions under one Control Cabinet (i.e. direction control valves, connectors, fittings, tubings, electrical terminal on DIN Rail system with Tags and labelling)
- ✓ Tagged pneumatic logic circuit as well electrical instrumentation & wiring diagram inside the panel, this enhance easy and prompt access point for machine operator as well maintenance department.

Customized Cylinder Assemblies:

Complete cylinder assemblies designed according to customer's application requirements. Optimum Design, Incorporate all the accessory and the necessary components under one assembly (i.e. cylinder, direction control valves, flow control valves, fittings, tubing & ISO Mountings etc.). This gives benefit of installation of all the accessory components under our expertise, we ensure accurate installation & testing of all the installed components as a unique product. testing and under single unit part no. and delivery to your door step (premises) safely & reliably.

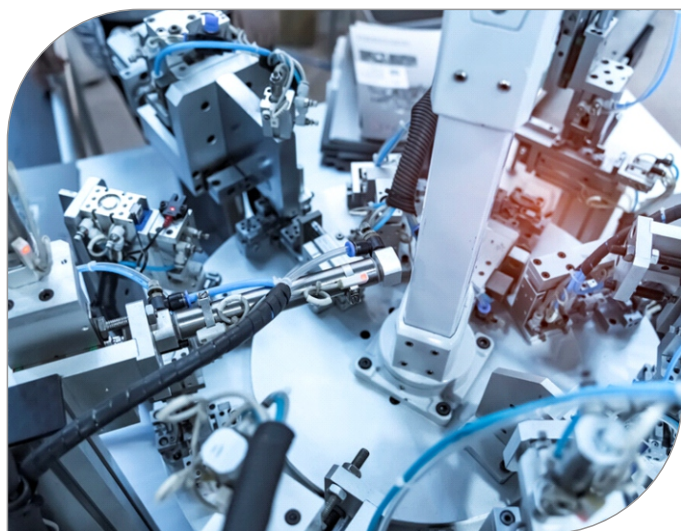

Multi Position Cylinder (Positioning Cylinder)

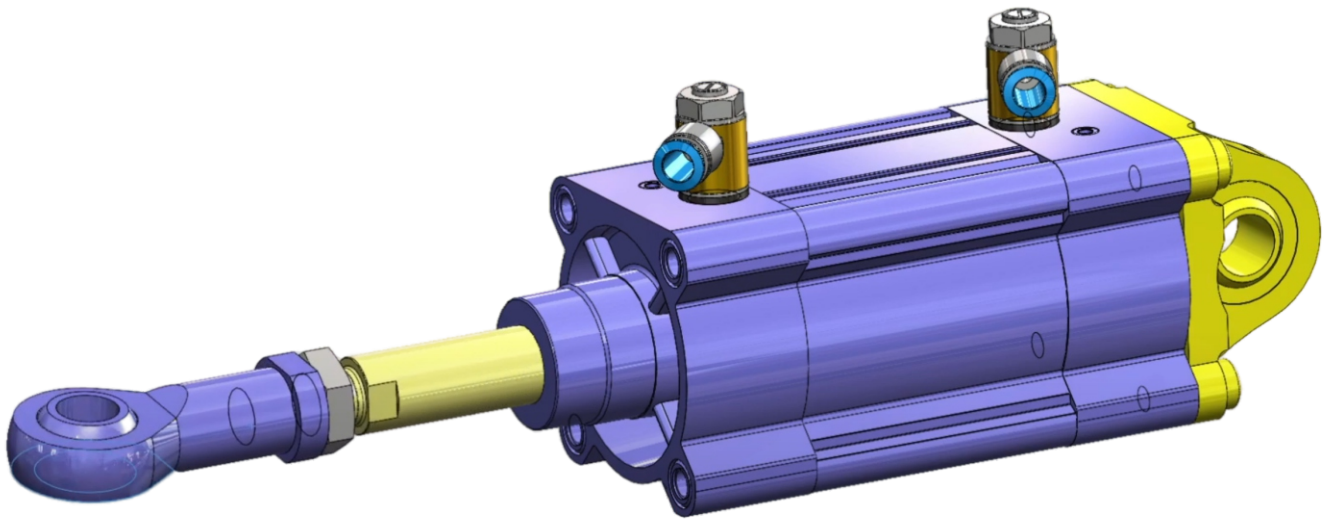

Pneumatic BOM (Bill Of Material) in Kit :

Designing & Supply of Complete BOM – Bill Of Materials for complete machine / systems / projects in Kits under one Unique Code suits customer's requirements
